

Enriching the Soul of the Caregiver and the Child

June 30 to July 5, 2024

at Sunrise Waldorf School in Duncan
on Vancouver Island, British Columbia, Canada

Opening Sunday at 3:00 pm

Daily schedule 8:00 am to 5:30 pm

Please join us as we gather together using study, movement, singing and painting to enrich our inner landscape and repertoire of songs, games, and rod puppetry skills. Through singing, movement and deepening in the meaning of our work, Anna will guide us as we polish our stars during this week. Dorota brings expertise with the usefulness of puppets for their breathing movements and gestures. Rod puppets in particular can dance and sing, soothe and inspire, help with transitions, and bring magic and gentle humour to young children. Ko will be helping us to explore more of our inner life through biography and painting. There will be time for participants to learn from each other and make a rod puppet too (cost included in tuition).

Five-day intensive course, open to all.

with **Anna Rainville,**
Dorota Ignaszewska
and **Ko Hawkes**
